## EDUCATION

### Diploma In Mechanical Engineering Prabhu Kailash Polytechnic

06/2018 - 06/2021

CGPA

- 7.71

### B. Tech In Computer Science Engineering Techno International Batanagar

06/2021 - 07/2024

CGPA

- 7.70

## WORK EXPERIENCE

### Software Developer Trainer Databit

10/2023 - Present

Kolkata

Tasks

- As a Software Developer Trainer, My role likely involved guiding students in understanding software development concepts, technologies, and best practices.
- **Delivering Training Sessions:** Providing lectures, workshops, and hands-on coding sessions in various programming languages and software development tools.
- **Mentoring Students:** Offering one-on-one guidance to help students with their assignments, projects, and coding challenges.
- **Developing Course Materials:** Creating content such as presentations, tutorials, and coding examples for topics ranging from basic to advanced.
- **Project Guidance:** Helping students develop real-world projects to apply their learning.
- **Evaluating Performance:** Assessing students' understanding through tests, coding exercises, and project reviews.

## ACHIEVEMENTS

Prayas 2k22, A National Level Inter-College Project Competition held on 13th May 2022

## SKILLS

Programming language : Java, Python(Basic), JavaScript

Tools and Frameworks: Spring Boot

Database: PostgreSQL, MySQL

Web Development: HTML, CSS, Bootstrap, React jsx

Developer Tools : Git, Docker, Postman

## PERSONAL PROJECTS

### Flash Card Learning Tool

- [https://github.com/6262abhishek/flsah\\_card\\_learning\\_tool](https://github.com/6262abhishek/flsah_card_learning_tool)
- Allows users to **create, and review flashcards** for effective memorization.
- Utilized **React's component-based architecture** for a dynamic, responsive UI.
- Integrated **Axios** for seamless data fetching and external API interactions

### Bike Rent API

- <https://github.com/6262abhishek/BikeRentAPI>
- "Developed a **Bike Rent API** using **Spring Boot** to manage bike rental operations, including bike availability, renting, and returning. Implemented RESTful endpoints to handle requests, integrated
- **Spring Data JPA** for database management, and used **MySQL** for persistent storage. The API allows users to rent bikes, track rental history, and return bikes seamlessly, supporting efficient resource management and user interaction."

### Learning Management System

- [https://github.com/6262abhishek/Learning\\_Management\\_System](https://github.com/6262abhishek/Learning_Management_System)
- Developed a comprehensive **Learning Management System** using **Java**, **JDBC**, **Servlet**, **JSP**, and **MySQL** to facilitate online learning and resource management.
- Implemented user registration and authentication features for both students and staff, allowing for secure access to the system.
- Designed functionalities for users to request, view, and manage books within the library, enabling efficient tracking and management of educational resources.

## CERTIFICATES

Machine Learning Training Certificate All India Data

Java Full Stack Training Shikharthy Infotech Pvt Ltd.

## LANGUAGES

Hindi

Native or Bilingual Proficiency

English

Full Professional Proficiency
